Be it for construction-site operations in intense sunlight, for the hectic work of delivery persons or for people working in cool warehouses – Daiber offers the perfect workwear outfit for your day-to-day work. Our classic designs, the durable fabrics and the wide range of products and colours enable you to individually combine your workwear and to adapt it to your personal needs.

For a professional and expressive appearance, our corporate fashion can be decorated depending on the customer's requests. We will be pleased to advise you on the possibilities.

MADE WITH RESPONSIBILITY

SOCIAL COMPLIANCE

Gustav Daiber GmbH is a long-standing member of the Business Social Compliance Initiative (amfori BSCI) and commits itself as well as its business partners and suppliers to socially responsible business practices. Accordingly, the corporate fashion products of JAMES & NICHOLSON and myrtle beach are manufactured in compliance with the BSCI Code of Conduct. This code includes, among other things, a clear commitment to the right of employees to freedom of association, protection against discrimination and appropriate remuneration, i.e. a living wage.

This ensures humane and respectful treatment of suppliers along the value chain. Furthermore, the UN Guiding Principles on Business and Human Rights apply, as well as the occupational safety regulations of the International Labour Organisation (ILO). Child labour, forced labour or precarious working conditions are not tolerated.

Several independent inspection bodies in the production countries take care of the strict auditing of all factories and ensure compliance with these conditions.

QUALITY STANDARD

The merchandise is regularly tested by certified testing institutes in the countries of production regarding the given parameter. Moreover, in cooperation with SGS, Testex, Hohenstein and other renowned institutes the quality is continually controlled.

STANDARD 100 BY OEKO-TEX^(s)

This standard guarantees that textile and non-textile product components pose no threat to health. The components of all the products of JAMES & NICHOLSON and myrtle beach, i.e. also all threads, buttons and other accessories, are tested for harmful substances and pose no threat to health.

COMPLYING WITH THE REACH REGULATION

The REACH regulation is the European chemicals legislation on the registration, evaluation, authorisation and restriction of chemicals.

All the products of JAMES & NICHOLSON and myrtle beach are manufactured in compliance with REACH.

OCS STANDARD

The Organic Content Standard makes it possible to record the exact proportion of organic material in the products and to follow it through the production chain. This guarantees product traceability and transparency in the value chain.

OUR REGION IS ON THE MOVE

As a family-run company we see not only our own benefit, we also want to contribute to a positive development in the region. Therefore, when choosing our partners and suppliers, we give preference to regional partnerships whenever possible.

WITH EACH SHEET OF RECYCLED PAPER, WE IMPROVE OUR ECOLOGICAL FOOTPRINT.

- obtained from 100 per cent waste paper
- saves about 70 per cent water
- saves about 60 per cent energy
- no use of harmful chemicals or optical brighteners
- marked with the EU-eco label and the Blue Angel
- certified by the FSC

ENVIRONMENTAL PROTECTION

In addition to social standards, Daiber is also committed to improving environmental sustainability in its international supply chain. By introducing the amfori BEPI system of the Business Environmental Performance Initiative, for example, environmentally oriented services can be monitored and potential for improvement can be identified.

This makes it possible to work together with long-standing suppliers

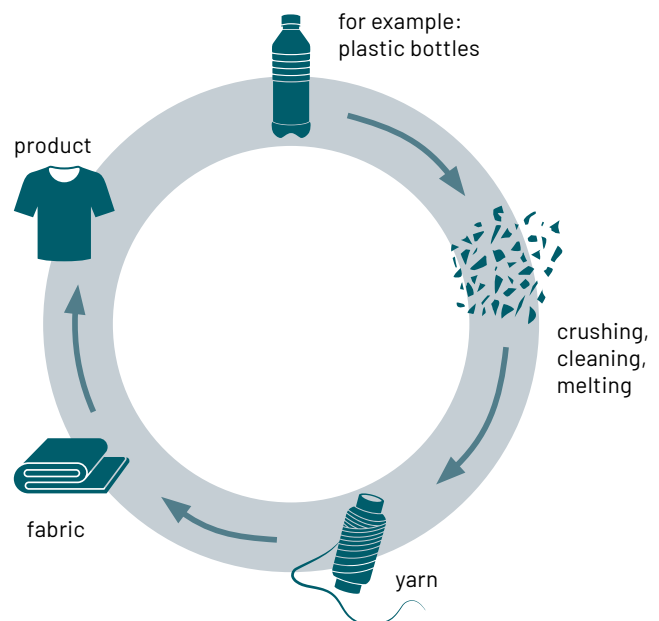

to develop new approaches for more product responsibility and a more responsible value chain and to implement them in a targeted manner. For this purpose, the production sites receive special training measures for practical implementation, so that the impact on the environment is continuously reduced.

When manufacturing the products, too, care is taken to keep the environmental impact as low

as possible. Thus all the products of JAMES & NICHOLSON and myrtle beach are REACH-compliant, are certified OEKO-TEX® STANDARD 100 and Organic Content Standard (OCS) and thus meet high quality standards. In addition, sustainable materials such as organic cotton and recycled polyester are increasingly used.

WORKWEAR MADE OF RECYCLED PET-BOTTLES

It is important to James & Nicholson to sensibly process raw materials that have already been used instead of always entering new ones into the production cycle.

In this way, environmental pollution can be reduced and unnecessary waste can be avoided. Therefore, with the majority of their new workwear collection, the two brands use recycled polyester, which is reclaimed from plastic bottles. The bottles are cleaned, melted and spun into yarn. For example, the workwear trousers JN1812 contain PET bottles – and organic cotton. A classic example of 100% sustainable fabric as well as 100% function.

Jacket, T-shirt / polo shirt or pants: All the items made of or containing recycled polyester are as high-quality, breathable and hard-wearing as the previous ones. Both the yarn production and the adherence to the quality standards are regularly checked by the independent laboratory LABTECH.

Recycled polyester can be found on the following pages:
51, 52, 60, 61, 65, 66, 74, 75, 80, 81, 82, 83, 157, 159,
179, 182, 205 and 213.

COMING TO GRIPS WITH THE SUN THANKS TO WORKWEAR WITH CERTI- FIED UV-PROTECTION

Many professions are practised outdoors all day or part of the day. Most of the year people working outdoors are exposed directly or indirectly to the sun. Therefore, their risk of contracting skin cancer is much higher than that of people working indoors.

UV-CLOTHING PROVIDES BETTER PROTECTION THAN SUNSCREEN

The best protection against harmful UV-radiation is provided by certified UV-protective clothing. It shields off radiation, does not have to be applied once again like sunscreen and therefore lasts all day. For the parts of the body uncovered by clothes sunscreen with a high sun protection factor and a headgear should be used.

THE MORE UPF, THE BETTER

The UPF (Ultraviolet Protection Factor) indicated on UV-protective clothing shows how much longer somebody wearing these clothes can stay in the sun without suffering any damage to health. Therefore, the UPF-indication on textiles corresponds to the sun protection factor of sun-screens. This is based on the self-protection time of the skin, which varies considerably depending on the individual skin type.

A product marked with **UPF 50+** according to this standard blocks more than 98% of the harmful UV-rays.

TESTED TEXTILE UV-PROTECTION

Our products are manufactured and checked according to the strictest standard (Australia) for textiles with UV-protection.

The LABTECH Prüfungsgesellschaft mbH is officially accredited according to DIN EN ISO/IEC 17025 2005 and based on this standard, they test as an independent laboratory the UV-protective factor of our textiles.

- steel construction
- floor layers
- tilers
- plumbers

Special Features:

- durable and hard-wearing softshell material
- Breathable and permeable to water vapour (2,000 g/m²/24 h)
- CORDURA® insets

FUNCTIONS & FEATURES

Whoever really wants quality will also invest in details. Therefore, the workwear of James & Nicholson is equipped with high-quality functional materials and finishing. Let us give you an overview of the brands and functions.

CORDURA®

CORDURA® is a very sturdy, textured polyamide fabric, which is extremely tear- and abrasion-proof. Special yarns, specially developed weaving techniques, dyeing methods and additional textile finishing ensure that products with CORDURA® can be used as durable and comfortable workwear.

CORDURA
FABRIC

SOFT
SHELL

SOFTSHELL

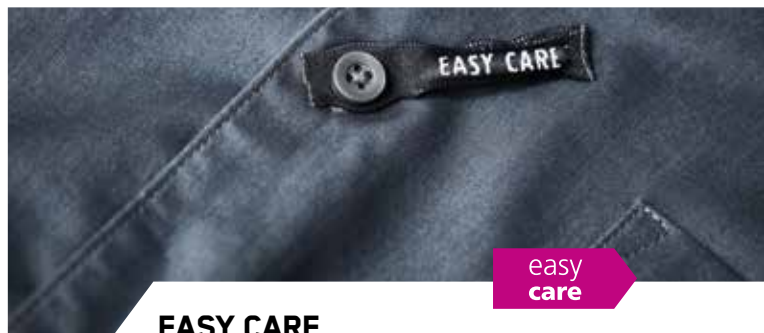

Softshell with TPU membrane consists of three layers. Due to the microporous TPU membrane as middle layer the material is water-proof, wind-proof and breathable at the same time.

3M™ SCOTCHLITE™ REFLECTIVE FABRIC

The reflective fabric enhances the visibility at night or in poor lighting conditions. (without protective function/no PPE).

3M
THINSULATE™
Insulation

easy
care

EASY CARE

This special finish makes shirts and blouses especially easy to iron. To preserve this function the textiles should not be overdried in the tumbler and you should avoid using an overheated iron.

SORONA® AURA

sorona®AURA fibers consist of 37% vegetable components, obtained from renewable raw materials. Garments with sorona®Aura offer an eco-friendly alternative with outstanding breathability, lightweight comfort and efficient heat retention. sorona®AURA offers the perfect mix of sustainability and performance.

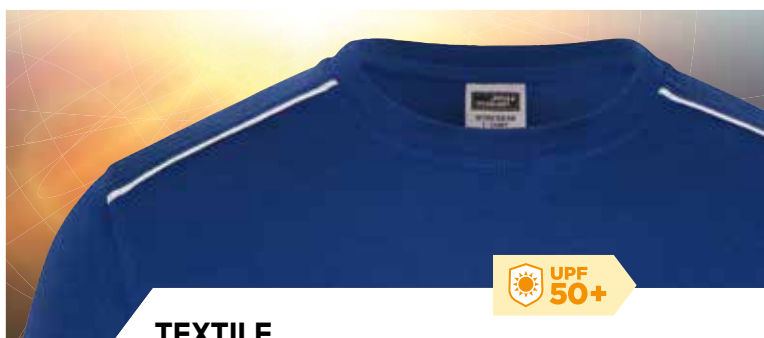

sorona®
AURA

BIONIC
FINISH®ECO

BIONIC-FINISH®ECO

BIONIC-FINISH® was developed, following the example set by nature, 'learning from nature'. The textile is protected against water and dirt by a very thin crystalline structure. BIONICFINISH®ECO protects man and nature.

UPF
50+

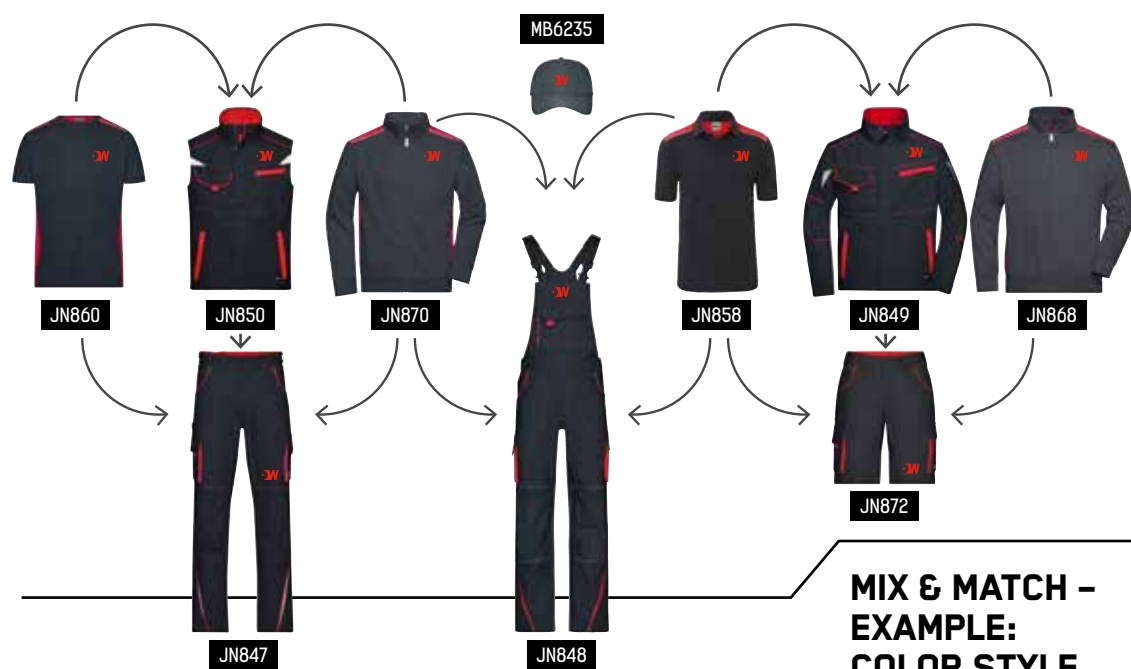

TEXTILE UV-PROTECTION

The UPF (Ultraviolet Protection Factor) indicated on UV-protective clothing shows how much longer somebody wearing these clothes can stay in the sun without suffering any damage to health. This is based on the self-protection time of the skin.

ONE TEAM. ONE OUTFIT.

There is no second chance for a first impression. Therefore, professional staff outfits are so important. Corporate fashion also boosts team spirit. Respectable, modern, reliable – corporate fashion is the textile figurehead of a company. This helps the employee to identify with the company and his colleagues.

**MIX & MATCH –

THE PRINCIPLE OF WORKWEAR

The highest level of functionality and modern looks are not mutually exclusive. Today they are a prerequisite for a workwear collection that takes its job seriously. A good outfit is worn with as much pleasure at work as it is worn after work. Moreover, our ESSENTIAL STYLE collection impresses with an incredible flexibility: All the items can be easily combined with each other and with items of existing collections. Casual, practical, functional!

A woman is climbing a metal spiral staircase at an industrial site. She is wearing a dark, heavy-duty jacket with reflective white stripes on the sleeves, dark pants, a black beanie, and work gloves. She is looking up towards the sky. The background shows industrial structures and a cloudy sky.

JN1815 EXTREMELY WIND- AND WATERPROOF

It looks extremely good and has something on the ball. Trendy hard-shell jacket with 10,000 mm water column and a smart Sorona®AURA-padding. Extreme cold and rain? No big deal with this jacket.

JN810 FLEXIBLE

Reliably protects against wind, water and dirt thanks to a robust 600 mm water column. The sleeves can be removed with a practical zipper for maximum flexibility. The soft fleece inside of the collar nestles gently against the neck and ensures cozy warmth, even on cold days.

SLIM LINE

DEMAND AS A MISSION

Today's makers value cool style, comfortable fit and everyday practicality. That's why our SOLID STYLE collection looks simple, but does a damn good job of combining functional materials and fashionable reflective elements with thoughtful details like triple stitching, CORDURA® reinforcements and concealed zippers. Unicolor, cool, modern!

A woman with dark hair in a ponytail, wearing a red zip-up hoodie with white piping on the sleeves, is working on a wooden structure. She is looking down at a blue metal component. Another person's arm in a red hoodie is visible on the left, holding a metal rod. The background shows wooden planks with text: "MADE IN AUSTRIA 10091309C", "EN13377 P20M", "4.50m", and a "doka" logo.

JN895 OPEN TO EVERYTHING

At work it is always good to have an allrounder on board: This easily combinable zipped sweatshirt can be worn on its own and in a layered look, in harmonious or in contrasting color. With contrasting pipings and a cuddly, roughened inside it is indispensable for the in-between season.

SOFTSHELL

Softshell with TPU membrane consists of three layers. Due to the microporous TPU membrane as middle layer the material is water-proof, wind-proof and breathable at the same time.

Shell
Membrane
Lining
Heatretention

JN882 IS ON THE BALL

Outside it is cold and wet, inside it is cool and dry. When standing, you will soon be cold, when moving, you will be too warm- this breathable softshell jacket is perfect for the in-between season. It avoids trapped heat, is wind- and weather-proof and on the inside it impresses with its durable and elastic interlock.

This softshell jacket has an overall cooling effect: On the outside it affords protection against wind and weather. Inside the fleece keeps you warm without overheating.

COLOR
STYLE

WORKING WITH PROFESSIONALS

The workwear of James Nicholson by Daiber is distinguished by a lot of experience: Not only our own experience but also the experience of craftsmen and handymen. Their inspiration is deeply rooted in this product line. Therefore, COLOR STYLE has been convincing for years with a durable and yet elastic quality, tearproof seams and numerous pockets. The zips and buttons are concealed. What is striking however, is the sporty bicolor design.

STRONG
STYLE

NO HALF-WAY MEASURES

The only way of getting better is putting the good to the test again and again. Therefore, we have optimized our professional line, developed it further and given it a new name: STRONG STYLE. The high-performance collection is hard-wearing and reliable. Important spots like knees and shoulders are reinforced with CORDURA®, the seams are tear-proof. Details like ventilation openings are taken for granted. Workwear as workwear should be.

A man with short brown hair and a light beard is standing in front of a large glass window. He is wearing a dark navy blue short-sleeved polo shirt with white piping on the collar and sleeves, and dark navy blue cargo shorts with a black belt. His hands are in his pockets. Four red dots are placed on the image to highlight specific features: one on the belt loops, one on the waistband, one on the side seam of the shorts, and one on the cargo pocket.

**Elasticated
waistband with
belt loops**

**Washable at 60°C,
suited for tumble
drying**

**Tearproof triple
stitched seams**

**Pockets reinforced

A man with short brown hair and a beard, wearing bright blue V-neck medical scrubs, is pushing a metal cart. He is looking down at the cart with a slight smile. To his right, a woman in similar blue scrubs is partially visible, holding a clipboard. The background features a wall with a geometric diamond pattern and a modern lamp with a grey dome shade.

MEDICAL

QUALITY FOR PROFESSIONALS

Our medical collection offers sophisticated workwear that has been specially developed specifically for the medical sector. With robust fabrics, reinforced seams and a functional design, it ensures durability and high wearing comfort in everyday life. Practical details such as easily accessible pockets and breathable materials guarantee maximum flexibility and freedom of movement.

WASHING (TUB)

The numbers in the tub indicate the maximum washing temperatures which must not be exceeded. The bar below the tub requires a more (mechanical) gentle treatment (e.g. programme for delicate fabrics). It designates washing programmes which are suitable for easy-care and delicate garments. Textiles made of cotton or mixed fibres should be pulled into shape when still wet. We recommend that textiles with prints or embroideries should only be washed on the reverse at a maximum of 40 degrees in order not to impair the quality of the print or embroidery.

Normal washing

Delicate washing

Normal washing

Delicate washing

Normal washing

Delicate washing

Specially delicate washing

Delicate washing

Delicate washing

DRY CLEANING (CLEANING DRUM)

The letters are intended for the textile cleaner. They indicate the possible solvents. The bar below the circle requires cleaning under limited mechanical strain, with a limited amount of moisture and at a medium temperature. Textiles with prints or embroideries should not be dry cleaned.

Normal clothes

Delicate clothes

Delicate clothes

Delicate clothes

Delicate clothes

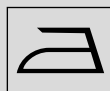

Delicate wet cleaning

Special wet cleaning

No dry cleaning possible

IRONING (IRON)

The dots indicate the temperature scale of the irons. Textiles with prints or embroideries should only be ironed on the reverse.

Iron at high temperature (max. 200 degrees)

Iron at medium temperature (max. 150 degrees)

Iron at low temperature (max. 110 degrees)

Do not iron

TUMBLE DRYING (TUMBLE-DRYER)

The dots indicate the drying-grades of the tumble-drier. Textiles with transfer prints must not be tumble-dried.

Tumble dry at normal temperature

Tumble dry at low temperature

Do not tumble dry

BLEACHING (TRIANGLE)

This symbol shows the textile cleaner whether the garment may be bleached or not.

Chlorine bleaching possible

Only oxygen bleaching
No chlorine bleaching

Do not bleach

A PERFECT APPEARANCE

Daiber offers the complete corporate fashion package

From head to toe, from functional jacket to T-shirts in matching colours. Thanks to a large colour selection and a huge variety of products, any company will easily find a suitable corporate outfit, which can be decorated with their own logo to create a perfect appearance.

Printing or embroidery – your own message is the centre of attention, whereas the branding of Daiber remains discreetly in the background. Another example of the decoration competence: After having been embroidered on, the breast pockets of the SOLID collection can still be used without restriction as pockets. See page 14 for more information on corporate fashion.
